

Hosting services with full Blackberry functionality**BlueSaffron Blackberry Enterprise Server™**

The BlackBerry Enterprise Server (BES) gives IT departments simplified management and centralized control of BlackBerry handheld devices in a secure, scalable architecture compatible with existing server hardware and software.

BlueSaffron's BES Hosting services offer full BlackBerry functionality, including access to email and calendaring applications and pushed corporate applications, without the up-front costs of a full BlackBerry implementation.

Blue Saffron 's Hosted Blackberry allows mobile workforces to stay connected via BES while off-loading the maintenance and administrative chores to Blue Saffron

Network connectivity is established between the Blue Saffron BES server and your enterprise email.

We then create end user accounts on the BES server via the BlackBerry Server Manager; associate devices' PIN/MAN number to these accounts; and enable Mobile

Data Services (MDS) and wireless synchronization.

Standard Hosted Blackberry Options

- BES integration with your internal corporate email server
- BES integration with an Blue Saffron-hosted email server
- BES integration with Blue Saffron-hosted on-demand email

Blue Saffron Supports the Installation by:

- Monitoring the BES log/console
- Checking the BES Tech notes database
- Checking coverage of the device
- Ensure that the BES Router is running
- Checking mail.box on all servers in the message route
- Checking filtering
- Performing restart tasks (BES is started and stopped via Domino console; MDS is started and stopped via Windows services control panel)
- Providing 7x24 BES Server Support
- Escalating to RIM as necessary

About Blue Saffron

We are one of the UK's most progressive independent suppliers of essential services to businesses, focused on communications and IT. Whether you are looking for fixed line or mobile telecommunications, internet access, or IT services such as data backup, security or email, BlueSaffron can help.

We package, price and bill our services clearly and simply, with a unique commitment to intelligent customer service. Our independence makes sure we are completely impartial and can leverage our stable of world-class suppliers to meet your needs.
